PROJECTS

Lexsearch
• Built an AI-powered semantic search application using Python and Generative AI.
• Worked with prompt engineering and vector search workflows.

AI Fitness Trainer
• Developed an AI-based fitness assistant application using Python.
• Explored AI automation and user interaction workflows.

Silicon Edge
• Built a technology-focused application with backend and API integration.
• Improved debugging and problem-solving skills through development.

Customer Churn App
• Developed a machine learning model to predict customer churn.
• Performed data preprocessing and model evaluation.

Devmind
• Created an AI-focused development project using Python tools and APIs.
• Worked on automation and logical workflow implementation.

Onstream
• Developed a streaming-based application with backend functionality.
• Improved application structure and data handling skills.

Taxsaathi (Ongoing)
• Building an AI-assisted tax and finance related platform.
• Exploring automation workflows and intelligent data processing.

TECHNICAL SKILLS

Programming Languages: Python
AI & ML: Machine Learning Basics, Generative AI, Prompt Engineering, LLM Applications, Semantic Search
Backend & APIs: REST APIs, API Integration, Automation Workflows
Tools & Platforms: Git, GitHub, Linux
Core Concepts: DBMS, Operating Systems, Debugging, Logical Reasoning
Other Skills: OCR & PDF Processing, Data Processing, AI Chatbot Development, Vector Databases

EDUCATION

Seventh Days Adventist Higher Secondary School, 2020 - 2024

Indus University, 2024 - 2028

B.Tech Computer Science and Engineering, Minor - Internet of Things

ADDITIONAL INFORMATION

- **Fresher**
- **Languages:** English, Hindi
- **Certifications:**
  1. Python 3 Programming Specialization, University of Michigan, Coursera
  2. Data Structures and Algorithm, IITM Pravartak, Coding Ninjas.
- **Ongoing Courses:**
  1. MIT Micromaster, Statistic and Data Science (Method Track), Edx.
  2. **D**eep Learning Specialization, DeepLearningAI, Coursera.
